KERR | Compressor
Engineers

www.kerrcompressors.co.uk

An experienced supplier to the Scottish Aquaculture Community for onshore & offshore applications.

Our specialist compressed air engineers are multi-skilled, factory trained and have a wealth of experience of installing, servicing and maintaining compressed air systems. With the resources and ability to respond to any situation or requirement at short notice; we provide service and support of the highest quality to Aquaculture customers **24/7 and 365 days a year.**

NEW AQUACULTURE COMPRESSORS IN STOCK

KAESER MOBILAIR M59 & M82 SKID-MOUNTED

Compressed air whenever you need it, wherever you need it – even under the toughest offshore conditions. Our powerful **M59** and **M82 MOBILAIR** Portable Compressors feature advanced, fuel efficient engines and are specially designed and modified for Aquaculture environments:

- Aluminium Panels & Frame** - corrosion resistant
- Galvanised Louvres** - avoids corrosion
- Special Internal Coating** - weather proofs & protects components
- Upgraded Electrical Components** - Improved circuitry & insulation
- Auto-refuelling Connections** - for external bowser connection
- Telematics System** - for remote monitoring & diagnostics

“KAESER products are used in the whole value chain of Aquaculture from hatcheries to over grow out facilities, on land as well as offshore.”

KAESER
COMPRESSORS

Sole Authorised Distributor in Scotland for KAESER Compressors & HPC since 1990

HPC | Compressed Air Systems
Authorised Distributor

HPC Authorised Distributor of the Year - 12 years running (2010/11 to 2021/2022)

bcas
Member

BCAS Member since 1998

KERR Compressor Engineers
Compressors • Vacuum Pumps • Blowers
Nitrogen Generation • Fluid Power

MOBILAIR M59 Aquaculture:

- 5.5 m³/min (195 cfm) at 7 bar
- Efficient pV Control with adjustable pressure setting
- Environmentally friendly engine – certified in accordance with EU Stage V
- Aquaculture specification & protection
- SIGMA Control SMART
- Patented Anti-Frost Control
- Skid-mounted design

MOBILAIR M82 Aquaculture:

- 8.4 m³/min (295 cfm) at 7 bar
- Environmentally friendly engine – certified in accordance with EU Stage V
- Aquaculture specification & protection
- SIGMA Control SMART
- Patented Anti-Frost Control
- Skid-mounted design
